BUDGET HARDWOOD SCREENS

PREMIUM HARDWOOD BATTEN SCREENS

RECYCLED COMPOSITE SCREENS

MERBAU GATES

INTERNAL POOL BATTEN SCREENS

HARDWOOD BATTEN SCREENS

Our locally made premium hardwood batten screens are one of our most popular screening profiles. These screens are commonly used as front fences or to screen off an existing back or side fence helping to create the perfect backdrop for any outdoor entertaining area. The screens come already pre made all screw fixed from behind so no fixings are visible, they then simply butt up next to each other when being installed for a seamless finish!

BATTEN SCREENS 42mm x 19mm

- 3000 x 900**

TIMBER SLATTED SCREENS

Our slatted screens are perfect for any backyard or pool area. With our standard 8mm spacing, these flat screens are pool compliant, gaining extra privacy for you and your family. These screens are highly durable and well priced. We recommend staining or painting them to help the screens thrive in the elements.

2400 x 1200

RECYCLED PLASTIC COMPOSITE

This is one of our most exciting new products, which uses recycled plastic mixed with sawdust and UV stabilisers to create the most sustainable screening solution that is maintenance free and looks amazing! Our black composite finish is a similar look to powder coated steel giving a clean and smooth appearance at a fraction of the cost! Our monument is more of a textured wood grain finish like more traditional composite material. If you are looking for a sustainable screening profile and are wanting a coloured finish rather than a natural timber look than this is the product for you!

RECYCLED COMPOSITE RANGE

TREATED PINE

Our treated pine vertical screens are our most cost effective screening option that once painted can help transform the look of your backyard with out breaking the bank. They can be used very effectively to increase the height of your fence providing you with the additional privacy and security you are after and can help appease council and pool regulators. These screens are commonly used to cover up existing paling or unsightly Colourbond fences.

BUDGET TIMBER SCREENS

Our range of imported budget hardwood screens are great lightweight screening alternatives designed to be attached directly to your existing fence saving the cost of building a separate framework from your existing fence. These screens are all pool compliant and screw fixed from behind for greater longevity, they are ideally used in longer fence lines where you are looking to screen out your back and side fences as they can help to keep costs down whilst still providing great durability.

FENCE EXTENSIONS

Fence extensions are a great cost effective way of extending the height of your fence saving you time and money but still providing you with the privacy from neighbours and strangers that you are seeking to achieve. We can also advise which extensions to use for pool compliancy and RES code compliancy. We offer a range of fencing extensions, including woven paling fence extensions, treated pine fence extensions, mixed hardwood fence extensions, lattice fence extensions and premium hardwood extensions. All of which are priced at quality competitive prices likely to be cheaper and of better quality than the fence extensions at bunnings. So no matter what type of extension you are after we have exactly what you need as we have Australia's widest range of fence extensions!

INTERIOR POOL

These interior pool fences are designed to give the ultimate luxury aesthetic to any outdoor pool area. We use powder coated steel to hold the battens together, opening up the screen itself, providing a view to your pool. The benefits of using the steel tubing means we can mould the screens around your desired area, avoiding harsh corner bends / breaks in the screen.-Our internal pool batten screens are a new exciting design that is coming on trend with many architects, builders and landscapers choosing to look at timber battens for internal pool fences to provide more of a natural earthy feel rather than traditional outdated metal tubular fencing. With our screens coming pre made it helps save countless hours onsite drilling each batten and positioning the tubing to match up. We use powder coated steel, stainless steel and copper tubing, with copper being a popular choice when customers are wanting to curve the screens to follow the contours of their property.

INTERIOR POOL FENCES

or stainless steel tubing

MERBAU GATES

We make gates to suit driveways whether you are after a sliding gate or double gates or just a small pedestrian gate we can help you out with any of these options. Generally we use 40mm X 40mm gal steel made to suit our screens so that you cant see the frame when looking front on, these are commonly used for side way gates and double gates. We use 50mm X 50mm for sliding gates for front fences. We also can powder coat the gate frames the color of your choice.

MERBAU GATES

40mm X 40mm Gate frame

1800mm X 900mm \$320
